Business Description

HR has an all encompassing experience in the field of electrical power engineering, mechanical engineering, plumbing, project management, construction management, and commissioning. In addition to the theories set in IEEE, ASME, our licensed professional engineers have advanced working knowledge of the NFPA, ASHRAE, OSHA, NETA ATS, IESNA, TIA/EIA 568 and NEC. HR delivers an array of mechanical and electrical power systems engineering services across complex systems. Whilst prioritizing on safety and reliability, our design concepts are erudite, stylish and utilize the cutting edge technologies. HR understands the importance of innovation and adheres to sustainable practices in compliance with the standards set by the USGBC.

Our intense and dynamic project management experiences enable us to deliver our engineering solutions on time and under budget. We have based our working principles on standards set forth by the PMI and our motto is to form a partnership with our clients to facilitate collaboration through all project phases. Our value engineering and procurement efforts have provided millions in savings for our clients while employing energy efficient practices.

Our extensive commissioning experience covers state of the art data centers, utility plants, existing and new buildings with complicated HVAC & Power systems, sub systems, and controls. Through successful commissioning, we have met the stringent customer and energy efficiency requirements. Our commissioning process have strictly adhered to the demanding construction schedules and tight budgets.

Effective commissioning is an international, visible, cooperative and proactive process. We have performed thorough design reviews, installation verification, proper system start ups, functional performance tests, operations and maintenance (O&M) training, and complete documentation of the HVAC systems

Why You Should Enroll in the State Direct Deposit Program!

At the State of Maryland we value our vendor relationships. To better serve our vendor community, we've implemented an ACH direct deposit program to streamline our payment process.

Here are the top three reasons why you should enroll your business in the ACH program:

1. **Get Paid Faster:** Direct deposit enables faster payment since the process is electronic and does not rely on printing and mailing checks.

2. **Save Time:** Direct deposit places funds directly into your account, so you don't have to go to the bank to deposit checks.

3. **Eliminate Hassle:** Direct deposit eliminates the problem of lost checks which can cause delays in your payments.

If you wish to enroll in the direct deposit program simple download a form X-10 [here](#), fill it out, and return it to Comptroller's Office General Accounting Division (GAD) for processing.

Note: Instructions are included on the form.
